

Mobile hand washing unit

HGP230 Hygienius ProWash

The preprogrammed wash cycle is designed to match the World Health Organization Guidelines *"Clean hands protect against infection"* - resulting in highly efficient water usage.

Suitable for medical and healthcare settings

The Hygienius ProWash can be plugged in to any convenient 13 amp socket

 Order online at tealwash.com

The Hygienius ProWash is entirely self contained and needs no mains water service or drainage connections.

Featuring a preprogrammed hand wash/rinse cycle

To start the timed wash programme:-

1. Place your hands in the bowl by the sensor and the automatic sensor will start to flash, beginning the wash/rinse cycle. Water will be dispensed for 3 seconds to enable hands to be wetted.
2. Apply soap and lather thoroughly for a period of 20 seconds. At the end of that time, warm water will be dispensed for 10 seconds to enable soap to be washed off the hands.
3. Remove hands from the bowl and dry with a paper towel. The Hygienius ProWash will automatically reset ready for the next user.
4. The total wash time is approximately 35 seconds.

Features of the Hygienius ProWash:-

- Hands free operation under warm running water.
- The water always at the optimum temperature of 38° - 40°C.
- Highly portable - the Hygienius ProWash can be plugged in to any convenient 13 amp socket.
- Nothing to reset or adjust - simple daily hygiene routine.
- Highly efficient use of water - up to 40 wet/soap/rinse cycles per filling of the TEALTainer water container.
- The TEALTainer ensures that fresh and waste water are kept separate and hygienically contained.
- A soap dispenser and paper towel holder are included.
