

Handwashing units for motor vehicles

The CC12/24

Compact Classic

**For hot water
hand washing
in or on trailers,
motor vehicles,
vans and trucks**

The Compact Classic for motor vehicles is fully automatic and only powers up when the battery is fully charged and the engine is running - so there is no drain on the battery.

The Compact Classic is provided in 12 and 24 volt versions.

12V: 180W, 15A

24V: 250W, 12A.

 **Order online
at tealwash.com**

The Compact Classic provides a minimum of fifteen 12 second hand washes per filling – enough for a hard day's work – providing hot water with fingertip tap operation.

For hot water hand washing in commercial vehicles

Hot water hand washing benefits from an ideal water temperature of 38°C – 43°C.

Compact Classic mobile sinks for motor vehicles are the perfect solution for those that need a hot water hand wash on the move.

It simply connects to the vehicle's electricity supply, ensuring hot water is always to hand: no plumbing is required.

Waste water will be held in the stainless steel bowl.

To empty the waste water, lift out the stainless steel bowl and pour the waste water into a foul water drain.

Available in 12 and 24 volt versions.

 **Order online at tealwash.com**

It's robustly constructed in brushed stainless steel with a stainless steel bowl, enabling it to stand up to the rough and tumble of on the road use.

Hot water hand washing benefits from an ideal water temperature of 38-43°C.
