

Mobile handwashing station

CWP230 The CliniWash

Position near any mains electricity socket. The CliniWash needs no water supply.

The automatic sensor starts a wash and rinse cycle which results in a highly efficient use of water.

 **CliniWash**

Suitable for all hospitals, medical facilities and care homes - anywhere an effective hand wash is required!

The CliniWash can be plugged in to any convenient 13 amp socket

The soap and towel dispensers are not supplied.

The CliniWash is designed to accommodate any common user specified options.

Essential for use anywhere an effective hand wash is required: the CliniWash mobile handwash station is entirely self contained and needs no mains water service or drainage connections.

Highly mobile, robust and easy to maintain

Features of the CliniWash handwash station:-

- Highly mobile - smooth running lockable castors enable speedy deployment.
- Robust but lightweight aluminium frame construction.
- Hands free operation under warm running water.
- It is entirely self contained, with the TEALTainer water container holding 9 litres of fresh water.
- The waste water is contained within a heavy duty polyethylene bag - when the fresh is used up the waste bag will be full.
- The CliniWash mobile handwash station provides up to 40 wet/soap/rinse cycles per filling of the TEALTainer.
- The CliniWash has nothing to adjust. Both the water temperature (approx. 38 - 40°C) and the wet/soap/rinse cycles are factory set.
- Minimal lifting: the superglide castors let you just wheel the CliniWash mobile handwash station to the nearest tap for filling and the nearest sink or drain for emptying.
- Simple daily hygiene routine.
- The CWP230's wash and rinse cycle is designed to match the World Health Organization's Guidelines *Clean hands protect against infection.*
- *The soap and towel holders are not supplied.*

Specification

- Overall height 1290mm
- Height to bowl 890mm
